Prerequisites for Publication

Authorship: The Editors of *Cardiovascular Intervention and Therapeutics* adhere to recommendations of the International Committee of Medical Journal Editors [http://www.icmje.org] regarding criteria for authorship.

Accordingly, each person listed as an author or coauthor for a submitted report must meet all three criteria. An author or coauthor shall have:

1. Conceived, planned, and performed the work leading to the report, or interpreted the evidence presented, or both;
2. Written the report or reviewed successive versions and participated in their revision;
3. Approved the final version.

Meeting these criteria should provide each author with sufficient knowledge of and participation in the work to allow him or her to accept public responsibility for the report.

Certification: This Certification Form should be signed and submitted with the manuscript. The senior or corresponding author is requested to certify that all listed authors qualify for authorship according to the above three criteria. The author(s) should also certify that: no part of the work described has been published before; that the work is not under consideration for publication elsewhere; that if and when the manuscript is accepted for publication, the author(s) agree to automatic transfer of the copyright to the society and that the manuscript, or its parts, will not be published elsewhere subsequently in any language without the consent of the copyright holders.

Animal and human research: Research involving humans must be carried out in accordance with the ethical standards of the responsible committee (institutional or regional) or with the Helsinki Declaration of 1964 and all subsequent revisions. Studies involving animal experimentation must include a statement of compliance with the guidelines as recommended by the Science Council of Japan or the National Research Council's criteria (NIH No. 86-23).

Conflict of Interest: All authors must disclose any affiliation with or financial involvement in any organization with a direct financial interest in the subject matter or materials discussed in the manuscript. All funding sources supporting the work and all institutional or corporate affiliations are to be acknowledged in a footnote.

Certification Form
- to be submitted with manuscript to *Cardiovascular Intervention and Therapeutics*

Manuscript title:

I/We hereby certify that the work submitted is in full accordance with the statement of "Prerequisites for Publication" for *Cardiovascular Intervention and Therapeutics*
